## **Data Protection Statement - May 2018**

Dear Applicant

We ask all members to provide us with contact details including e-mail addresses so we can communicate with you in a cost effective manner to provide reminders of forthcoming events and other issues concerning the allotments.

It is a requirement under the Data Protection Act to ensure that our members provide their personal data willingly for the purposes of communicating Society information to them. We give our assurance that your personal data will never be shared or given to any third party other than to comply with requirements of the Landlord, Beaumaris Town Council, the National Allotment Society and our insurance companies to ensure insurance cover is provided. It is our intention that you only ever receive communications from the Beaumaris Allotments Society or its members and no-one else.

If you do not wish your personal data to be held by the Society, please contact us. Please bear in mind that we are required to share personal data with our insurers and that plot holders for whom we have no data, will not be included in our insurance. In this case, plot holders will need to provide evidence that they have independent third-party insurance that is applicable when working on the allotments, if they wish to remain as plot holders.

If you are in agreement with your personal data being held by the Society, choose YES on your Application form and/or your Society Membership form.

Yours sincerely

Chairman  
BEAUMARIS ALLOTMENTS SOCIETY
